Education

University of California San Diego
Master of Science in Business Analytics

San Diego, CA
Jul 2025 - Dec 2026

University of Delaware
Bachelor of Science in Finance (Financial Mathematics)

Newark, DE
Sep 2021 - Jun 2025

Skills & Technical Proficiencies

- Technical Skills: Python (Pandas, NumPy, Scikit-learn), SQL, R, Excel (Pivot Tables, VLOOKUP, VBA), Power BI, Tableau, Bloomberg Terminal, Wind Terminal
- Analytical Methods: Data Analysis, Statistical Modeling, Predictive Analytics, Risk Assessment, A/B Testing
- Languages: English (Fluent), Mandarin Chinese (Native)

Professional Experience

Shenzhen Zhongxingxin Cloud Service Co., Ltd., Business Analyst Intern **Apr 2024 - Jun 2024**

- Led stakeholder engagement for digital transformation initiative, conducting 50+ interviews across finance, operations, and executive teams to identify pain points and define requirements for enterprise risk assessment system
- Synthesized data from stakeholder sessions into business insights, delivering reports that informed investment decisions and shaped product roadmap
- Partnered with data engineering teams to design Power BI dashboards that reduced analysis time by 30%

BDA Consulting, Cross-border Business Analyst Intern **Los Angeles, CA | Jan 2024 - Mar 2024**

- Conducted market research across major cross-border e-commerce platforms (Amazon, Temu, and Shopee) by manually collecting pricing data from 10,000+ products to identify competitive pricing strategies and market positioning opportunities
- Performed comparative price analysis using statistical methods to quantify pricing differentials, delivering insights that supported C-suite strategic planning for cross-border expansion
- Created executive presentations with Tableau dashboards to communicate pricing trends to non-technical business leaders

Haitong Securities Co., Ltd., Business Analyst Intern **Dec 2023 - Feb 2024**

- Collaborated with portfolio managers to define requirements for investment products, conducting research using Bloomberg and Wind terminals
- Designed client monitoring system to track account health indicators including deposit levels and trading frequency, enabling proactive risk management
- Built financial models and KPI dashboards to track portfolio performance across equity and fixed-income sectors

China Merchants Bank (CMB), Client Service Associate **Jun 2023 - Aug 2023**

- Provided wealth management consultation to high-net-worth clients, analyzing portfolios to recommend investment products, contributing to 15% improvement in client retention
- Conducted portfolio performance analysis using Power BI, delivering insights that informed product development and enhanced client satisfaction
- Maintained client relationships through proactive communication of market trends and timely investment recommendations

Project Experience

Predictive Modeling for QuickBooks Upsell Campaign **UCSD | Jan 2026 - Mar 2026**

- Developed logistic regression and neural network models using Python (pyrsm, sklearn) to predict customer upgrade likelihood for Intuit QuickBooks, achieving significant profit improvement
- Performed feature engineering and model evaluation using F1-score, AUC-ROC, and profit metrics, scaling results to 763,334 businesses while addressing 50% response rate drop-off

Bitcoin Fraud Detection Using Graph Neural Networks **University of Delaware | Sep 2024 - Mar 2025**

- Designed static and dynamic graph structures for 203,769 Bitcoin transactions using PyTorch Geometric, comparing GCN performance to evaluate temporal information impact on fraud detection
- Achieved 4.4% F1-score improvement and 9.1% reduction in false negatives with dynamic graph model through time-decay edge weighting
